Hello,

My name is Lisa Gregor, and I was born and raised in the Pacific Northwest. I have been teaching for almost a decade and hold my Montessori teaching credential as well as my Master's Degree in Elementary Education and my Washington state teaching license.

My wife and I have been married for 12 years, and have an amazing 4 year old son. In our free time we love to travel in our camper van, visit national parks, ski, hike, garden, and read.

I am so excited to continue my journey as a part of the Bloom family! Having always known that I wanted to be a teacher; I really feel that I have found my home in this community. I am an adamant believer in the idea that each students learning journey should be just as unique as they are and am incredibly grateful for the opportunity to be a founding member of this wonderful school.
